Aurora West USD 129

District Superintendent

District Provided Statement

Dr. Jeff Craig jcraig@sd129.org **Address**

Aurora IL 60506 (630) 301-5000

http://www.sd129.org

Dating back to 1868, the West Aurora School District is one of the most historic school districts in the state. A tradition of pride, honor, and excellence is evident when you walk the halls and encounter parents, community members, and staff. West Aurora School District offers a wide variety of programming that is grounded in critical thinking and problem-solving for all students that prepares them for any post high school pathway.

About the Report Card

State and federal laws require public school districts to release report cards to the public each year.

The federal Every Student Succeeds Act requires that states annually assign schools a summative designation that meaningfully differentiates school performance based on multiple performance measures. All states were offered a waiver of this requirement for school year 2020-2021 due to the impact of COVID-19. For more information about Illinois' accountability system please visit www.isbe.net/summative.

For additional information, refer to the Public Business Rules for 2021 Report Card Metrics and the 2021 Glossary of Terms.

IAR

What is it?

This shows the percentage of students scoring at each of the Performance Levels for the Illinois Assessment of Readiness (IAR). Each Performance Level is a broad, categorical level defined by a student's overall scale score and used to report overall student performance by describing how well students met the expectations for their grade level/course. Each Performance Level is defined by a range of overall scale scores for the assessment. There are five Performance Levels for IAR assessments:

- Level 1: Did not yet meet expectations
- Level 2: Partially met expectations
- Level 3: Approached expectations
- Level 4: Met expectations
- Level 5: Exceeded expectations

Students performing at levels 4 and 5 met or exceeded expectations, have demonstrated readiness for the next grade level/course and, ultimately, are on track for college and careers. Performance Level Descriptors describe the knowledge, skills, and practices that students should know and be able to demonstrate at each Performance Level in each content area (English language arts [ELA] and mathematics) and at each grade level/course.

SAT

What is it?

This shows the percentage and number of 11th-graders scoring at each of the performance levels for the SAT. Each Performance Level is a broad, categorical level defined by a student's score and used to report overall student performance by describing how well students met the expectations for their grade level/course. Each Performance Level is defined by a range of overall scores for the assessment. There are four Performance Levels for the SAT:

- Level 1 Partially Meets Standards: The student has only partially met standards and demonstrates a minimal understanding of the knowledge and skills needed relative to the Illinois Learning Standards.
- Level 2 Approaching Standards: The student is approaching the proficiency level and demonstrates an incomplete understanding of the knowledge and skills needed relative to the Illinois Learning Standards.
- Level 3 Meets Standards: The student has met the proficiency level and demonstrates adequate understanding of the knowledge and skills needed relative to the Illinois Learning Standards.
- Level 4 Exceeds Standards: The student has exceeded the proficiency level and demonstrates a thorough understanding of the knowledge and skills needed relative to the Illinois Learning Standards.

^{*}indicates non-reported data.‡indicates suppressed data due to privacy concerns. Student counts reported are counts out of groups 10 or greater.

ISA

What is it?

This shows the percentage and number of students scoring at each of the Performance Levels for the Illinois Science Assessment (ISA). The ISA performance levels indicate students' understanding of the Illinois Learning Standards in science for their grade level. There are four Performance Levels for the ISA:

- Level 1 Emerging: Work at this level shows a partial application of knowledge and skills. It is superficial (lacks depth), fragmented, or incomplete and needs considerable development. Work contains errors or omissions.
- Level 2 Developing: Work at this level does not meet the standard. It shows basic, but inconsistent, application of knowledge and skills. Minor errors or omissions detract from the overall quality. Work needs further development.
- Level 3 Proficient: Work at this level meets the standard. It is acceptable work that demonstrates application of essential knowledge and skills. Minor errors or omissions do not detract from the overall quality.
- Level 4 Exemplary: Work at this level is of exceptional quality. It is both thorough and accurate. It exceeds the standard. It shows a sophisticated application of knowledge and skills.

^{*} indicates non-reported data. ‡ indicates suppressed data due to privacy concerns. Student counts reported are counts out of groups 10 or greater.

Proficiency

What is it?

The federal Every Student Succeeds Act (ESSA) requires states to assess their learning standards for ELA, math, and science. Each state may also have a general assessment for the majority of its students and an alternate assessment for the 1 percent of students with the most significant cognitive disabilities. The All Test Proficiency measure is the proficiency rate for students combining all tests. A rate is calculated for ELA, math, and science.

Growth Percentile - IAR

What is it?

This shows the growth of students relative to other students in the state with a similar scale score in the preceding school year(s). If the data is available, the Student Growth Percentile (SGP) takes up to two prior scores. The school, district, and state measure is the sum of the students' SGP divided by the number of students with an SGP. Illinois uses SGPs to calculate growth. Proficiency shows whether or not students have mastered a common, high standard; whereas, growth recognizes progress toward and beyond the standard, no matter where each student started. Data show that students of all races, income levels, languages, and disability statutes demonstrate growth across the full range. Our rigorous assessments ensure there is more than enough room to measure the growth of even Illinois' highest achievers.

Participation Rate

What is it?

This shows the percentage and number of students participating in standardized testing, by subject and applicable test. Some students may take the test for one subject but not another. According to Illinois School Code, all students enrolled in public schools are required to participate in the state assessment or an alternate form of the assessment. Students who participate but for various reasons do not complete the testing process (e.g., illness) are still counted as having participated.

Eighth Graders Passing Algebra I

What is it?

This shows the percentage of eighth-graders passing Algebra I. They are defined as eighth-grade students who have successfully completed Algebra I (or its equivalent) by the end of Grade 8. Successful completion is measured by earning a D or above and receiving at least 1.0 credit hour.

	Students
District	26.3%
State	29.9%

^{*} indicates non-reported data. ‡ indicates suppressed data due to privacy concerns. Student counts reported are counts out of groups 10 or greater.

9th Grade On Track

What is it?

This shows the percentage of 9th graders on track. They are defined as the percentage of first-time ninth-grade students who have earned at least five course credits without failing more than 0.5 course credits in their core subjects. For the purpose of this metric, core subjects include reading, math, science, and social studies.

Career and Technical Education

What is it?

Career and Technical Education (CTE) programs in Illinois provide instruction for careers in high-wage, high-skill, and in-demand occupations.

Four year graduation rate: This shows the percentage of CTE concentrators who graduate high school as measured by the four-year adjusted cohort graduation rate, both as a whole and broken down by student group.

Extended graduation rate: This shows the percentage of CTE concentrators who graduate high school as measured by the extended-year adjusted graduation rate as defined in such Section 8101 (within six years of entering high school), both as a whole and broken down by student group.

ELA Proficiency: This shows CTE concentrators' proficiency in the challenging state academic standards adopted by the state under Section 111(b)(1) of the ESEA of 1965, as measured by the academic assessments in reading/language arts as described in Section 1111(b) (2) of such Act, both as a whole and broken down by student group.

Math Proficiency: This shows CTE concentrators' proficiency in the challenging state academic standards adopted by the state under Section 111(b)(1) of the ESEA of 1965, as measured by the academic assessments in mathematics as described in Section 1111(b)(2) of such Act, both as a whole and broken down by student group.

Science Proficiency: This shows CTE concentrators' proficiency in the challenging state academic standards adopted by the state under Section 111(b)(1) of the ESEA of 1965, as measured by the academic assessments in science as described in Section 1111(b)(2) of such Act, both as a whole and broken down by student group.

Postsecondary placement rate: This shows the percentage of CTE concentrators who, in the second quarter after exiting from secondary education, are in post secondary education or advanced training, military service, or a service program that receives assistance under Title I of the National and Community Service Act of 1990 (42 U.S.C. 12511 et seq.), are volunteers as described in Section 5(a) of the Peace Corps Act (22 U.S.C. 2504(a)), or are employed, both as a whole and broken down by student group.

Nontraditional program enrollment rate: This shows the percentage of CTE concentrators in CTE programs and programs of study that lead to fields in which their gender is underrepresented, both as a whole and broken down by student group.

Attained postsecondary credits rate: This shows the percentage of CTE concentrators graduating from high school having attained post secondary credits in the relevant career and technical education program or program of study earned through a dual or concurrent enrollment or another credit transfer agreement, both as a whole and broken down by student group.

Work-based learning rate: This shows the percentage of CTE concentrators graduating from high school having participated in work-based learning, both as a whole and broken down by student group.

Total Count of CTE Participants: This shows the total count of CTE participants, both as a whole and broken down by student group. Subsequent sections throughout the remainder of this section represent subtotals within each of the career cluster program areas available statewide.

^{*}indicates non-reported data.‡indicates suppressed data due to privacy concerns. Student counts reported are counts out of groups 10 or greater.

High School Graduation Rate

What is it?

This shows the percentage of graduating students who entered ninth grade for the first time four, five, or six years prior to the year being reported. Graduation Rate is calculated based on ESSA High School Graduation Rate guidance found here. Students are reported at the school where students attend (home school). The cohort is based on the number of students who enter Grade 9 for the first time, adjusted by adding into the cohort any student who transfers in later during Grade 9 or during the next three years and subtracting any student from the cohort who transfers out, emigrates to another country, transfers to a prison or juvenile facility, or dies during that same period.

About the data

District environment data includes information regarding finances as well as information regarding conditions in the classroom, such as average class size and total school days.

No Data district's percentage of adequacy

Evidence-Based Funding

Early Learning

What is it?

This shows the percentage of entering kindergartners rated on their readiness. The Kindergarten Individual Development Survey (KIDS) was implemented statewide in Illinois in the 2017-18 school year. KIDS is an observational assessment tool designed to help teachers, administrators, families, and policymakers better understand the development of children in kindergarten. ISBE requires kindergarten teachers to collect observations beginning on the first day of in-person instruction on a minimum of 14 required measures, which are from three key developmental areas. This subset of 14 measures provides a developmental indicator for a group of students (class, school, district, state) in kindergarten.

Kindergarten Individual Developmental Survey (KIDS) Results - Overall

	% of Entering Kindergartners	% of Entering Kind	of Entering Kindergartners Demonstrating Readiness by Developmental Area

School Level Finances

What is it?

Average spending per student at this school, as collected through the unaudited ESSA Site-Based Expenditure Report. Districts report the actual dollars spent in the previous school year, including site-level costs (like school staff) and districtwide centralized costs allocated to each individual school (like transportation and central office staff), divided by the school's enrollment. Districts also report whether federal or state/local sources funded the spending.

					District C	District Centralized Per Pupil						
	Site level Per Pupil Expenditures			Expenditures			Total Per Pupil Expenditures				Total	
	Enrollment	Federal	State/Local	Subtotal	Federal	State/Local	Subtotal	Federal	State/Local	Total	Exclusions	Expenditures

District Finances

What is it?

The Annual Financial Report (AFR) for a district is the final financial statement for the fiscal year of a Local Education Agency (LEA) after it has been audited by a qualified auditor. Each district is required to have an annual audit completed by a qualified and licensed auditing firm. The AFR is completed by the auditor and is submitted to Illinois State Board of Education. This displays the Revenue by Source, Expenditure by Function, Expenditure by Fund, and other financial indicators.

Revenue By Source

	Local Property Taxes	Other Local Funding	Evidence-Based Funding	Other State Funding	Federal Funding	Total Revenue

Average Class Size

What is it?

This shows the average number of students in each class at this school. Class size refers to the number of students in a classroom, specifically either the number of students being taught by individual teachers in a classroom or the average number of students being taught by teachers in a school, district, or education system

	PK	K	Grade 1	Grade 2	Grade 3	Grade 4	Grade 5	Grade 6	Grade 7	Grade 8	Grade 9	Grade 10	Grade 11	Grade 12	Grade HS	Overall

Total School Days

What is it?

This shows the total number of days in which the school provided at least five hours of instruction during the school year. The minimum length for an Illinois public school's year is 176 days. The number of actual calendar days varies from district to district.

	Total School Days
District	176
State	176

Health and Wellness

What is it?

This shows the average number of days of physical education per week per student.

Students

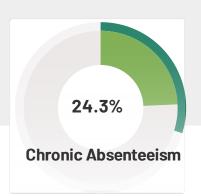

About the data

Student data includes information regarding the student population, including enrollment and attendance data, as well as information regarding specific student groups, such as gifted students and English Learner students. Student data often is disaggregated further into demographic student groups.

10,925

Student Enrollment

Student Enrollment

What is it?

This shows the total percentage and number of students enrolled in this school as of October 1 of the current school year. District-level enrollment includes students attending a school in the district and students placed in private schools by the district and funded by the district. The student enrollment excludes the following:

- Students given vouchers to attend private schools
- Students placed by their parents in private schools whose tuition is paid for by their parents, but who receive special education services from their home district

Advanced Academic Programs

What is it?

Advanced Academic Programs are courses of study to which students are assigned based on advanced cognitive ability or advanced academic achievement compared to local age peers and in which the curriculum is substantially differentiated from the general curriculum to provide appropriate challenge and pace.

Students With IEPs

What is it?

This shows the percentage of students who receive special education and related services in accordance with their Individualized Education Programs (IEPs). Each student who is found eligible for special education and related services receives an IEP that specifies supplemental services, accommodations, modifications, and supports to enable the student to be involved in, and make progress in, the general education curriculum. The state collects demographic information on all students, including racial and ethnic diversity. There are 14 disability areas, ranging from autism to visual impairment. Schools follow a process mandated by law in identifying students' disabilities and then developing IEPs.

What is it?

This shows the percentage of students with IEPs and the classification of their educational environment. Special education law requires that students with IEPs be placed to the maximum extent appropriate with children who are not disabled. This means including students with IEPs in general classrooms, the least restrictive environment, as much as possible. The IEP team, which includes parents, bases placement decisions on the best ways to meet the identified needs of a student. The percentage of time spent in general classrooms will vary according to the needs of individual students, who may require supplemental services to achieve their learning goals. The percentage of students with IEPs whose educational environment was classified into one of four settings for students age 6 to 21 is as follows:

- 80 percent or more of time in a general classroom with their non-disabled peers
- Less than 40 percent of time in a general classroom
- 40-79 percent of time in a general classroom
- In a separate facility

Early Childhood (EC) Educational Environments (ages 3-5)

What is it?

This shows the percentage of students with IEPs and the classification of their educational environment. Special education law requires that students with IEPs be placed to the maximum extent appropriate with children who are not disabled. This means including students with IEPs in general classrooms, the least restrictive environment, as much as possible. The IEP team, which includes parents, bases placement decisions on the best ways to meet the identified needs of a student. The percentage of time spent in general classrooms will vary according to the needs of individual students, who may require supplemental services to achieve their learning goals. For preschool students age 3-5 with IEPs, educational environments are classified in five ways:

- Receives the majority of special education services inside an early childhood program
- Enrolled in a regular early childhood program but the majority of special education services outside the early childhood program
- Enrolled in special education class or facility
- At home
- In the care of a service provider

State Performance Plan Indicators For Students With IEPs

What is it?

The Individuals with Disabilities Education Act (IDEA 2004) requires states to develop and submit a State Performance Plan (SPP) to the Office of Special Education Programs at the U.S. Department of Education. The SPP is designed to evaluate the state's efforts to implement the requirements and purposes of IDEA and describe how the state will improve its implementation. The plan consists of several priority areas with specific indicators defined for each area. Measurable and rigorous targets are defined for each indicator to show progress throughout the life of the SPP. States are required to publicly report on SPP Indicators 1-14. A link to Part B of the Illinois State Performance Plan can be found at https://www.isbe.net/Pages/State-Performance-Plan-Data-and-Accountability.aspx

SPP Indicator	Indicator Description	2021-22 District Data	2021-22 State Target	District Met Target
1	Graduation Percent for students with IEPs (Data lag one year)	87.50	82.6	Yes
2	Dropout Percent for students with IEPs (Data lag one year)	6.73	13.7	Yes

Student Mobility Rate

What is it?

A school's student mobility rate is the percentage of students who experienced at least one transfer in or out of the school between the first school day of October and the last school day of the year. Graduates are not included.

Student Mobility

	AII	Male	Female	Non Binary	White	Black	Hispanic	Asian	Native Hawaiian/ Pacific Islander	American Indian	Two or More Races	Students with Disabilities

 $[\]hbox{* indicates non-reported data.} \\ \hbox{\ddagger indicates suppressed data due to privacy concerns. Student counts reported are counts out of groups 10 or greater.} \\$

Chronic Absenteeism Rate

What is it?

This shows the percentage of students who miss 10 percent or more of school days per year either with or without a valid excuse. Illinois law defines "chronic absentee" as a student who misses 10 percent of school days within an academic year with or without a valid excuse. That's 18 days of an average 180-day school year. Excused absences include illness, suspension, need to care for a family member, etc. Students need daily instruction in order to succeed. Chronic absentees are at risk of academic and social problems.

Dropout Rate

What is it?

This shows the percentage of students who are removed from the local enrollment roster before the end of a school term. Dropouts include students in Grades 9-12 whose names have been removed for any reason, including moved not known to be continuing, transfer to GED-program, and aged out. The percentage does not include death, extended illness, graduation/completion of a program of studies, transfer to another public/private/home school, or expulsion.

Accountability

About the data

Summative designations are ratings that help families and communities understand how well schools are serving all students. Illinois has four summative designations: Exemplary School, Commendable School, Targeted School, and Comprehensive School. Targeted Schools and Comprehensive Schools receive additional funding and supports to build local capacity and improve student outcomes. Multiple measures of school performance and growth determine a school's annual* summative designation.

^{*} Federal waivers issued in 2020 and 2021 impacted accountability. For more information, see www.isbe.net/summative.

7 schools received funds totalling \$185,511

School Improvement Funds

Accountability

School Improvement Funds

What is it?

Funds authorized under Title I, Part A, Section 1003 School Improvement of ESSA are allocated on a formula basis to LEAs serving the state's lowest-performing schools that are implementing comprehensive support and improvement activities or the state's underperforming schools that are implementing targeted support and improvement activities. School Improvement funds are disbursed by the Illinois State Board of Education to eligible LEAs via the IL-EMPOWER Grant to assist schools in improvement status develop, implement, and monitor effective School Improvement Plans. The purpose of the funding is to build the capacity of school leaders to implement effective school improvement practices, and the goal is to enable schools in improvement status to improve student achievement and performance outcomes and to exit status. LEAs use school improvement funding for the following types of planning and implementation activities:

- Contracting for professional services from state-approved learning partners.
- Conducting school-level needs assessments.
- Analyzing data.
- Identifying resource inequities.
- Researching and implementing evidence-based interventions.
- Purchasing standards-aligned curriculum and materials.
- Purchasing and administering local assessments for progress monitoring.
- Paying school personnel to collaborate and to develop, implement, and monitor School Improvement Plans.

Schools Who Receive Title I School Improvement - 1003(a) Funds

	School Year First Identified As Needing Support	Title I School Improvement - 1003(a) Funds Received for Previous School Year	Level of Support	Reason for Receiving Title I School Improvement - 1003(a) Funds
Jefferson Middle School	2018	\$23,616	Targeted	IEP
Washington Middle School	2018	\$28,660	Targeted	EL, IEP
Greenman Elem School	2018	\$22,283	Targeted	Black
Hall Elem School	2018	\$20,820	Targeted	IEP
McCleery Elem School	2019	\$30,132	Targeted	Black
Nicholson Elem School	2019	\$30,000	Targeted	CWD
Smith Elem School	2019	\$30,000	Targeted	CWD

Teachers

About the data

Teacher data includes information regarding teachers, including salary, retention, and education, as well as information comparing the ratio of teachers to students.

Teacher Information

What is it?

This shows information pertaining to teachers, including experience, education, attendance, and evaluation.

	Average Teaching Experience	With Bachelor's Degrees	With Master's & Above	Attendance Rate	Evaluation Rate
District	14	30.2%	69.6%	68.5%	99.3%
State	*	40.6%	58.6%	66.1%	97.2%

^{*} indicates non-reported data. ‡ indicates suppressed data due to privacy concerns. Student counts reported are counts out of groups 10 or greater.

Student-To-Teacher Ratios

What is it?

This shows the average number of students per teacher. Teachers classified as special education teachers are not included. Research indicates that children in lower grades show the potential for higher achievement scores when they are in smaller classes. Many factors contribute to student achievement, and class size is only one part of this bigger picture. Special education classes are not included in this calculation.

	Student-Teacher Ratio - Elementary	Student-Teacher Ratio - Secondary
District	16	18
State	17	18

Average Teacher Salary

What is it?

This shows the average salary for teachers. This information is reported at the district level.

	Average Teacher Salary
District	\$71,176
State	\$72,316

^{*}indicates non-reported data.‡indicates suppressed data due to privacy concerns. Student counts reported are counts out of groups 10 or greater.

Retention Rate

What is it?

This shows the three-year average percentage of full-time teachers returning to the same school year to year.

		All	White	Black	Hispanic	Asian	Native Hawaiian/ Pacific Islander	American Indian	Two or More Races	Unknown
